

# Cluster 3 of group\_Yellow

- Aging
- Cancer: overview
- Cancer: specific types
- Carbohydrate metabolism
- Cardiovascular disease
- Cell growth and death
- Cell motility
- Endocrine system
- Energy metabolism
- Environmental adaptation
- Folding, sorting and degradation
- Immune system
- Infectious disease: bacterial
- Poorly characterized
- Protein families: genetic information processing
- Protein families: metabolism
- Protein families: signaling and cellular processes
- Replication and repair
- Signal transduction

## Expression
